

Secure at sea with nora®

High-performance floor coverings
for use on ships and oil rigs

Free of PVC

nora®

All About Flooring. **All About You.**

Secure floor under the feet

even during heavy seas

For more than 60 years, **nora systems GmbH** has been using the fascinating material rubber. Rubber is able to permanently and resiliently resist enormous loads and thus offers the best properties for the production of high-quality, high-performance floor coverings.

Our **nora®** floor covering solutions for the international shipbuilding industry are the result of long-term experience in rubber and the close partnerships with planners and users.

Thanks to their convincing benefits with regard to quality and functionality, the floor coverings meet the specific demands made on floor coverings for interior use in passenger liners/ferries, cruisers, tankers, container ships, and marine ships world-wide.

- extremely long life, and extraordinarily wear-resistant
- anti-slip properties
- excellent fire-protection properties
- resistant to cigarette burns
- largely resistant to chemicals
- high level of footfall sound absorption
- permanently resilient with a high walking comfort
- anti-static
- easy and economic cleaning without coating
- environmentally compatible – no PVC, plasticizers (phthalates) and no halogens (e.g. chlorine)

and for special demands:

- electrostatically dissipative
- resists most oils and greases

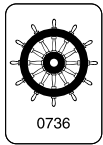

nora® rubber floor coverings also represent a convincing price/benefit ratio.

nora® stands for tested and proven quality

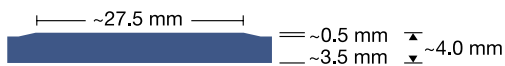

nora® floor coverings meet the highest demands on quality and all important provisions for the use in seagoing vessels and on oil rigs:

- flame-retardant for seagoing vessels according to the SOLAR rules
- tested according to the valid IMO resolutions MSC.61 (67) FTP Code, Annex 1, Part 2, and A.653 (16), with regard to fire behaviour, smoke density, and fire-toxicological safety in case of fire
- approved by the See-Berufsgenossenschaft (maritime social insurance against occupational accidents) (European notified authority, ID no. 0736), Germanischer Lloyd, Bureau Veritas, Det Norske Veritas, Nippon Kaiji Kyokai, and U.S. Coast Guard
- satisfies the Marine Equipment Directive (= MED) EU directive on ship equipment (directives 96/98/EC and 98/95/EC)

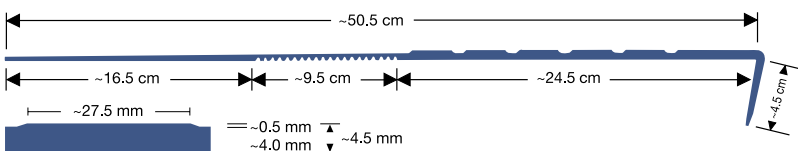

norament® 920

Extremely fire-resistant floor covering made of rubber, resists most oils and greases, suitable for fork lift trucks up to 6 N/mm² and electrically insulating. One-coloured with classical round pastille in 4 standard colours.

Also available as hammerblow and relief surface (minimum order quantity on request).
